

Take the stress out of paying for your games this season

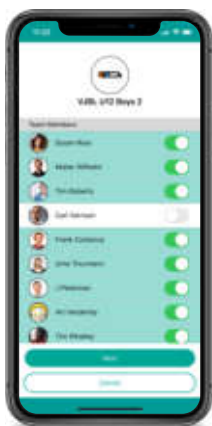

How Teampay works

1

Each parent/player downloads the Teampay app and joins their teams unique Teampay team code

2

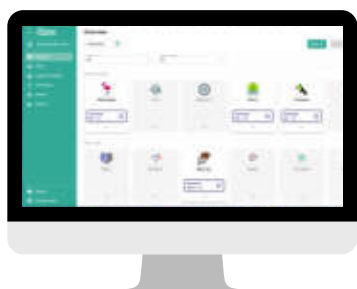

Each week the team manager logs into the Teampay app and selects who they want to charge from their team for the upcoming game

3

The game fee is split evenly amongst the players selected and payment is processed and sent directly to the venue that the team is playing at that week

4

The Association is notified in real time that your team has made payment. Your team can simply turn up and play, knowing that payment has already been taken care of

Why use Teampay?

- Your teams game payment can be made from anywhere & anytime via your mobile device (you don't need to be at the venue)
- The game fee can be split evenly amongst each player, meaning no more chasing players/parents for their portion of the game fee
- You no longer need to collect and hold excess funds - you can pay weekly at the click of a few buttons
- You no longer need a detailed excel spreadsheet tracking who has and hasnt paid - Access a full audit trail of all payments from your app
- Significantly easier for parents - they can simply turn up and watch the game, knowing payment has been taken care of

Teampay Support
